USS DE HAVEN

E 1962

Destroyermen of the *USS De Haven* joined an elite corps of Navy marksmen this year. Firing their twin-mount five-inch guns; *De Haven* gunners succeeded in winning all possible awards for excellence in gunnery. *De Haven's* director crew maintained their sharp eye by winning their third consecutive award. *De Haven's* anti-submarine team added to the victory by winning their second consecutive award for excellence. *De Haven's* record of excellence has followed the ship throughout its 18 year naval career. The ship was commissioned in 1944 and in 18 months of service in World War II she traveled better than 150,000 miles accounting for three enemy aircraft, three assists and the sinking of two ships. She also participated in the Korean Conflict. In 1960, *De Haven* got a face lifting by undergoing the Navy's *FRAM II* modernization process after which she joined Seventh Fleet in October 1961 as a member of Destroyer Flotilla ONE, homeported in Yokosuka, Japan
